discovery  
summer

Green is our future

Over many summers Discovery Summer has been increasing eco awareness amongst students and staff.

At our residential centres we offset carbon emissions on all student and staff flights in and out of the UK. In 2022 funds are going towards a range of 'gold standard' projects including reforestation and Solar Aid community initiatives across several continents.

In addition, we are working with our host centres to learn more about their own sustainability programmes and how we can support them.

Our effort continues - and we hope you will support us.

Coming to England is an exciting adventure. To get the most from your stay we want you to feel happy, safe and secure.

You will be looked after by your course director and supported by your house parents. They care for you, look after you if you are unwell and administer any medication. Help is available 24 hours a day.

There is a 24-hour emergency number for parents and students to call if necessary.

Boys and girls are accommodated separately. We normally place you in a bedroom with students of a similar age from other countries. Where we offer single rooms, we mix nationalities in corridors. There is a personal laundry service once a week. Our staff also live in the boarding houses.

We provide a healthy range of food that includes typical English meals and international food.

## MOBILE PHONE POLICY

The Discovery Summer experience is about maximising opportunities for making new friends, improving your English and trying new activities. To benefit from this, we limit the time you can spend on your mobile phone. Phones may not be used in class, during activities or at meal times. Restrictions vary according to age and centre. See joining instructions for details.
